SERIES 185 & 285 | PROXIMITY® BY DWYER

LINEAR AND ROTARY SMART POSITIONERS
Fail Freeze, Linear and Rotary Operation, HART® Communication

Proximity Series 185 & 285 Linear and Rotary Smart Positioners combine an easy to use, high performance unit with a low price. Series 185 models accurately control the valve stroke of linear motion valves and Series 285 models accurately control the valve stroke of rotary motion valves. An analog feedback signal is outputted to stabilize any valve system, and easy to use functions such as auto calibration ensure the accuracy of the unit. The compact design of this unit makes it easy to use with any size actuator. Smart Positioners feature a LCD screen attached to the outer surface of the unit, allowing for an easy inspection of the positioner condition while in the field. Available in user selectable single or double action, with HART® communication as standard. In the event that the 4 to 20 mA input signal is lost the 185 and 285 will fail open or fail close.

SERIES 195 & 295 | PROXIMITY® BY DWYER
COMPACT LINEAR AND ROTARY SMART POSITIONERS
Low Cost, Rotary Operation, HART® Communication

Proximity Series 195 & 295 Compact Linear and Rotary Smart Positioners are compact, high performance units with a low price. Series 195 models accurately control the valve stroke of linear motion valves and Series 295 models accurately control the valve stroke of rotary motion valves. An analog feedback signal is outputted to stabilize any valve system, and easy to use functions such as auto calibration ensure the accuracy of the unit. The compact design of this unit makes it easy to use with any size actuator, and can be used in applications where a larger positioner may not fit. Series 195 and 295 Smart Positioners feature a LCD screen attached to the outer surface of the unit, allowing for an easy inspection of the positioner condition while in the field. Available with HART® communication.

SERIES 195 & 295 | PROXIMITY® BY DWYER

MODEL CHART

FEATURES/BENEFITS
• User selectable single or double action
• LCD display

APPLICATIONS
• Linear motion valves or rotary motion valves with single or double acting actuators

SPECIFICATIONS
Input Signal: 4 to 20 mA DC
Input Impedance: 460 Ω max @ 20 mA DC
Air Supply: 35 to 116 psi (2.4 to 8 bar)
Air Connection: 1/4” NPT
Conduit Connection: 1/2” NPT
Conduit Rating: NEMA 4X (IP66)
Temperature Limits: -22 to 185°F (-30 to 85°C)
Weight: 3.3 lb (1.5 kg); SS models: 6.4 lb (2.9 kg)

HART® is a registered trademark of Hart Communication Foundation

FILTERS AND REGULATORS: See pages 483-484
