The Series NSS are self-contained rotation monitoring systems that are ideal for detecting the unwanted slowdown of process equipment. These systems bring efficiency and safety to your operations by preventing machine damage, product waste and costly downtime.

Each switch is used with a shaft-end mounted pulsar DISC which generates an alternating magnetic field that is picked up by the speed switch. The switch decodes this frequency signal to determine shaft speed and compares this to the pre-adjusted set point, easily calibrated via a single-turn potentiometer. In the event of rotational failure, such as a broken drive, belt slippage, product overloads or clogs, the relay can be used to provide an alarm or equipment shutdown, assuring machine protection and process integrity. The miniature speed switch series is fail-safe; any malfunction during operation will de-energize the control circuit.

FEATURES

- Easy installation and calibration
- Compact, self-contained rotation monitoring system
- Adjustable set point range

SPECIFICATIONS

Temperature Limits: Operating -40 to 140°F (-40 to 60°C).

Enclosure Rating: NEMA 4X (IP66).

Switch Type: SPDT.

Electrical Rating: 5 A @ 115 VAC.

Electrical Connections: 18 AWG, 12˝ (30.48 cm) L.

Conduit Connections: 1˝ female NPT.

Power Requirements: 115 VAC, 60 Hz standard.

Input Signal Type: NPN open collector.

Set Point Adjustment: Single turn (270°) potentiometer.

Gap Distance: 3/8˝ ± 1/8˝.

Weight:
- NSSP-A1W: 0.54 lb (0.82 lb with disc); NSSP-B1W: 0.54 lb (0.64 lb with disc);
- NSSM-A1W: 1.58 lb (1.88 lb with disc); NSSM-B1W: 1.60 lb (1.70 lb with disc).

Agency Approval: CE.

DISC SPECIFICATIONS

Materials: Pulsar discs: Nylon 12, PVC; Disc guards: SS; Easy mount bracket: Aluminum with SS shaft.

Maximum Speed: 10,000 RPM at ambient temperature.

DISC Included:
- NONE
- 4˝ A DISC
- 2-1/2˝ B DISC

Item 4 includes 16 magnetic poles for 10-100 RPM units.

Item 5 includes 8 magnetic poles for 100-5000 RPM units.

A-290: Easy Mount Bracket assembly for NSSM includes 4˝ DISC.

A-292: Disc Guard for NSS-AM/BM.

Price:
