CARBON STEEL SIPHONS

The SERIES A-169 Carbon Steel Siphons protect pressure instruments in high temperature applications. Water held in the 180° coil prevents steam from contacting the instrument. Constructed with carbon steel, the A-169 siphons can withstand high temperature and pressure. They are ideal for use with pressure gages and instrumentation where the process media temperature exceeds the rating of the instrument. The male NPT connection allows for easy installation and secure attachment.

FEATURES/BENEFITS
• Carbon steel construction
• MNPT connection allowing for easy installation

APPLICATIONS
• HVAC
• Industrial process

SERIES A-170

316 STAINLESS STEEL SIPHONS

The SERIES A-170 316 Stainless Steel Siphons protect pressure instruments in high temperature applications. Water held in the 180° coil prevents steam from contacting the instrument. Constructed with 316 stainless steel, the A-170 siphons offer the best resistance to corrosion, high temperature, and pressure. They are ideal for use with pressure gages and instrumentation where the process media temperature exceeds the rating of the instrument. The male NPT connection allows for easy installation and secure attachment.

FEATURES/BENEFITS
• Stainless steel construction
• MNPT connection allowing for easy installation

APPLICATIONS
• HVAC
• Industrial process
