OPTION

The Series BTLRN Long Reach Bimetal Thermometer reaches areas that other thermometers can’t. The long reach thermometers have available stem lengths from 12” to 72”. The large digits on the 3” dial are easy to read. A gripping handle is available as an accessory to comfortably hold the thermometer during temporary installations. The Series BTLRN is ideal for large containers and air ducts.

The Series BTM3 thermometers can’t. The long reach thermometers have available stem lengths from 12” to 72”. The large digits on the 3” dial are easy to read. A gripping handle is available as an accessory to comfortably hold the thermometer during temporary installations. The Series BTM3 thermometers are conveniently available in multiple temperature ranges and stem lengths ranging from 2-1/2˝ to 12˝. These heavy duty back-connected thermometers are ideal for any industrial applications such as boilers, ovens, or refrigerated cabinets.
