Maintain liquid level high and low limits with the Model DPL Dual Point Level Switch. Units can be used for single or dual point level control in semi-solid liquids, industrial slurries or heavy-bodied liquids like wastewater. Standard 24 inch electrodes can be cut by the end-user to a shorter length or lengthened by adding up to two 24˝ extensions (sold separately) to reach the max recommended length of 72”.

Model DPL110, Dual Point Level Switch ........................................... $475.00

ACCESSORY
Model DPL5, Electrode Extensions includes three 24” (610 mm) electrode extensions and mounting hardware ........................................... $112.00

Items are subject to Schedule B discounts.

Model CLS1 Capacitance Level Switch provides reliable point level measurement of solids, liquids and slurries in metallic or non-metallic tanks and vessels. Model CLS1 detects the presence or absence of material in contact with the probe by sensing a change in the capacitance. Electronics provide highly sensitive measurement detection (requires less than a 1 picofarad shift from ambient). State of the art technology ignores material build-up on the vessel sidewall or along the probe assembly. One time calibration is simple with a single multi-turn potentiometer. Red LED on housing indicates sensor status. Unit features an adjustable 1-30 second time delay and a 5 amp, SPDT fail-safe relay output. Model CLS1 can be mounted vertically or horizontally.

APPLICATIONS
High or low level detection in bins, silos, tanks, hoppers, chutes and other vessels where liquids, solids or slurries are stored.

Model CLS1, Capacitance Level Switch ........................................... $385.00

Items are subject to Schedule B discounts.

SPECIFICATIONS
Service: Solids, liquids, or slurries. Wetted Material: CPVC.
Temperature Limits: Process: -40 to 240°F (-40 to 116°C); Ambient: -40 to 185°F (-40 to 85°C).
Enclosure Rating: NEMA 4X (IP66), PVC, dust tight, water resistant.
Switch Type: SPDT.
Electrical Rating: 5A @ 250 VAC.
Power Requirements: 120 VAC, 1.5VA.
Conduit Connection: 3/4” female NPT.
Process Connection: 1” male NPS.
Mounting Orientation: Vertical or horizontal.
Sensitivity: Adjustable to <1 pF.
Fail-Safe: Switch selectable, high/Low.
Time Delay: Adjustable to 30 seconds.
Weight: 2.0 lb (0.91 kg).
