Gas Pressure Test Kit

Convenient Kit Perfect For Testing LP and Natural Gas Controls

The Model LPTK Gas Pressure Test Kit is ideal for testing LP and natural gas lines and controls. The kit’s gage shows if proper pressure is present or if a leak exists. The LPTK Gas Pressure Test Kit is available in two different gage ranges, and each gage is 3% full-scale accurate with an easy to use calibration screw on the back of the gage. It is easier to use than a manometer, and includes a sturdy case for added durability and safe handling.
