**Temperature Indicators, Digital**

**Series TI**

**Temperature Indicator**

Low Cost, Two-Digit Display, ±1% Accuracy

Monitor temperature with the Series TI Temperature Indicator. Units offer a temperature range of -58 to 99°F (-50 to 99°C) with an accuracy of ±1%. Quickly view temperatures on the bright red, double-digit LED. Models TI-106 & TI-216 feature an external potentiometer for probe temperature adjustment. The compact design of the Series TI makes it ideal for any refrigeration application.

**SPECIFICATIONS**

- **Range:** -58 to 99°F (-50 to 99°C).
- **Input:** PTC/NTC thermistor or 4 to 20 mA.
- **Power Requirements:** 110 VAC or 230 VAC.
- **Accuracy:** ±1%.
- **Display:** 2-digit plus sign, red.
- **Resolution:** 1° or 0.1 count.
- **Front Panel Rating:** NEMA 4X (IP65).
- **Weight:** 2.3 oz (65 g).
- **Agency Approvals:** CE, UL, ULc.

**ACCESSORIES**

- TS-5, PTC thermistor probe PVC (5 ft cable)
- TS-51, PTC thermistor probe PVC (10 ft cable)
- TS-6, PTC thermistor probe metal (5 ft cable)
- TS-61, PTC thermistor probe metal (10 ft cable)
